Playgrounds in the early 1900's were built to help children build relationships with other children in the area but soon became a very unsafe place to be. Most of the equipment in the 1900's were made of metal and a hard stone and sand mix called asphalt, whereas now we have playground made out of rubber and plastic.

### Then

### Now

Houses in London have changed a lot over time. In the old pictures you see above houses were mostly made out of stone, brick and wood. Now, there are lots of different types of houses and many more flats made out of glass, metal and plastic parts.
