The Super Tutor

Introduction

Have you ever heard about the Super Tutor? The Super Tutor is an extraordinary modern-day superhero. Read on to find out about what she looks like, what her superpowers are and how she became a superhero. How impressed you will be!

What do they look like?

The Super Tutor has long brown hair that she always ties up in a ponytail and eyes that are as blue as the ocean. She wears bright red gloves and a long flowing blue cape. On her top you will see a capital T, which stands for Tutor. The Super Tutor never goes on her superhero missions without her cape and special green boots because they help her fly. They work by pulling an activation chord that allows her to zoom through space to help people who need it.

What superpowers do they have?

The Super Tutor's superpowers include flying and having a bulging brain full of knowledge to share with friends. How can she fly? Well, she designed her own beautiful blue cape which can transport her to anyone needing help with their learning. When she puts the cape on and clicks her heels together and pulls the activation chord then whoosh, she can fly. To share her braininess with people she simply closes her eyes tight and the knowledge floats from her brain into her student's brain. How astonishing!

How did they become a superhero?

When she was 7 years old, the Super Tutor was forced to stay indoors by a nightmare superpower that roamed the lands, called Coronamare. She didn't let Coronamare stop her from learning. The Super Tutor worked night and day to learn as possible until her brain became full to the brim of facts and knowledge. There was no question she could not answer. From that day onwards, she could fly to help others with their learning. With the help of her friends, the Super Learners, the Flying Doctors, the Neverending Shelfstackers and Patient Parents all the children could learn and the evil superpower Coronamare was defeated.
